SUMMARY

With a B.A. in Animation and Graphic Design, I've honed my passion for technology and design, propelling my career forward. Over nearly two years, I've been a key member of a prestigious firm's design team, specializing in branding, app and web icon creation, and a range of print and digital materials. I am also an AI specialist, leveraging artificial intelligence to enhance creative workflows, optimize design strategies, and deliver innovative, data-driven solutions. My expertise extends to crafting engaging social media content and implementing effective digital marketing strategies, driving impactful results. Eager to contribute my creative vision and design proficiency to a forward-thinking company
